

POUYA ALAVI NAEINI

Graduate Software Engineer | Full-Stack, Mobile & Applied AI

pouya@pouyaalavi.dev | +61 451 519 624 | Sydney, NSW, Australia

linkedin.com/in/pouya-alavi | github.com/mrpouyaalavi | pouyaalavi.dev

PROFILE

Graduate Software Engineer and Australian citizen with hands-on experience building full-stack web, mobile and applied AI applications using TypeScript, React, Next.js, Python, Flutter, Supabase and PostgreSQL. Experienced in API integration, database design, deep linking, automated testing and CI/CD. Strong problem-solver with practical experience in teamwork, stakeholder communication and building reliable, accessible and user-focused software.

SKILLS

Languages: TypeScript, JavaScript, Python, Dart, Java, SQL, HTML/CSS

Frontend & Mobile: React, Next.js, Flutter, Tailwind CSS, Responsive Design, Accessibility

Backend & Data: Node.js, PostgreSQL, Supabase, REST APIs, Authentication, Row-Level Security

AI/ML: PyTorch, scikit-learn, Vercel AI SDK, Gradio, Transfer Learning, Model Evaluation, Grad-CAM

Testing & DevOps: Git, GitHub Actions, Docker, Vercel, Vitest, Playwright, Flutter Testing, CI/CD

PROJECTS

Syllabus Sync Ecosystem – Student Platform & Mobile Navigation

December 2025 – Present

Next.js, React, TypeScript, Flutter, Dart, Supabase, PostgreSQL, REST APIs, Vitest, Playwright, GitHub Actions

Repositories: github.com/mrpouyaalavi/syllabus-sync | github.com/mrpouyaalavi/MQ_Navigation

Demo: <https://syllabus-sync.app>

- Co-founded and helped build a connected student experience ecosystem combining academic planning, deadlines, campus support and mobile navigation.
- Developed user-facing web features in Syllabus Sync, improving usability, accessibility and multilingual support.
- Built a Flutter navigation companion with campus search, route previews, transport information and deep linking from Syllabus Sync, supported by automated testing and CI/CD.

Sylla – AI-Powered Study Assistant

July 2026 – Present

Next.js, React, TypeScript, Tailwind CSS, Vercel AI SDK, Supabase, Vitest

GitHub: github.com/mrpouyaalavi/Sylla

- Built an AI-assisted study application with streaming chat, conversation history, saved content and reusable study tools.
- Developed tools for summaries, explanations, flashcards, quizzes and structured study planning.
- Architected Sylla to operate as both a standalone application and an embedded assistant within Syllabus Sync, using reusable components and a typed provider layer for future production AI integrations.

CIFAR-10 Image Classification

April 2026 – Present

Python, PyTorch, scikit-learn, Gradio, Hugging Face Spaces, Grad-CAM

GitHub: github.com/mrpouyaalavi/CIFAR-10-Image-Classification | Demo: cifar10.pouyaalavi.dev

- Built an end-to-end image-classification pipeline comparing custom CNN, MobileNetV2 and ResNet-18 architectures.
- Achieved 87.48% test accuracy using ResNet-18 transfer learning.
- Added Grad-CAM interpretability, INT8 quantisation and an interactive Gradio deployment.

TECHNICAL EXPERIENCE

Web Developer | SBR Group

October 2023 – December 2024

Promoted from a three-month internship to a paid development role.

- Developed and maintained the company's WordPress website, improving mobile responsiveness, usability and page performance.
- Automated internal coordination workflows using Monday.com, reducing repetitive manual follow-up across teams.
- Collaborated with stakeholders to translate business requirements into website updates and practical digital solutions.

Co-Founder, Syllabus Sync Ecosystem | Macquarie University Incubator

May 2026 – Present

- Selected for the Macquarie University Incubator to develop and validate the Syllabus Sync ecosystem.
- Participate in founder education, mentoring and the EDUCATE accelerator while refining product and technical strategy.

ADDITIONAL EXPERIENCE

Sales Co-worker | IKEA Australia

May 2025 – Present

- Resolve customer enquiries through clear communication, practical problem-solving and cross-team collaboration.

Sales Assistant | Zara

December 2024 – May 2025

- Delivered customer service and supported transactions and stock operations in a high-volume retail environment.

Qualifications

Bachelor of Information Technology (AI & Web and App Development)

July 2023 – November 2026

Macquarie University

- Relevant coursework: Software Engineering, Data Structures, Algorithms, Database Systems, Web Development, and AI Fundamentals.

Certificate IV in Information Technology (Programming)

July 2022 – July 2023

TAFE NSW

- Built hands-on foundations in HTML, CSS, JavaScript, PHP, MySQL, responsive design, and database-driven web development.
