PROFILE

Final-year Bachelor of Information Technology student at Macquarie University, majoring in Artificial Intelligence and Web/App Development, with hands-on experience building full-stack web applications, data-driven projects, and applied AI solutions. Co-founder of Syllabus Sync / MQ Navigation, a student experience initiative focused on academic planning, student productivity, campus support, and mobile-first campus wayfinding. This work was accepted into the Macquarie University Incubator, where we are continuing to develop the initiative through startup validation, mentoring, founder education, and product development. Interested in graduate and early-career software, technology, and IT roles where I can contribute through practical problem-solving, reliable development practices, technical collaboration, and product-minded engineering.

SKILLS

Languages: Python, TypeScript, JavaScript, Java, SQL, HTML/CSS

Frontend: React, Next.js, Tailwind CSS, Responsive Design, Accessibility

Backend & Data: Node.js, PostgreSQL, Supabase, REST APIs, Authentication, Data Handling

Testing & DevOps: Git, GitHub Actions, Vercel, Docker, Vitest, Playwright, CI/CD

AI/ML: PyTorch, scikit-learn, Jupyter, Gradio, Model Evaluation

Professional: Product Development, Startup Development, Technical Documentation, Teamwork, Communication, Problem Solving, Stakeholder Collaboration

TECHNICAL EXPERIENCE

Web Developer | SBR Group

October 2023 – December 2024

Started as a 3-month intern and was subsequently retained in a paid role

- Designed and maintained the company's WordPress website, improving mobile responsiveness and page load performance through SEO and performance optimisation.
- Automated internal workflows using Monday.com, reducing manual coordination overhead across teams.
- Collaborated with stakeholders to translate business requirements into website updates, content changes, and practical solutions.

PROJECTS

Syllabus Sync & MQ Navigation — Student Experience Platforms

December 2025 – Present

Next.js, React, TypeScript, Tailwind CSS, Supabase, Vitest, GitHub Actions, Flutter, Dart

GitHub: github.com/mrpouyaalavi/syllabus-sync | github.com/mrpouyaalavi/MQ_Navigation

Demo: syllabus-sync-mq.vercel.app

- Co-developed Syllabus Sync, a full-stack student productivity platform for Macquarie University students, supporting academic planning, deadlines, events, campus support, and student experience.
- Developed MQ Navigation / Open Day App as a mobile-focused campus wayfinding prototype for new students, visitors, and Open Day use cases.
- Implemented secure authentication with TOTP-based MFA, row-level security, rate limiting, accessibility improvements, and test coverage to improve reliability and user security.
- Accepted into the Macquarie University Incubator for startup validation, mentoring, founder education, and further product development.

CIFAR-10 Image Classification

April 2026 – Present

Python, PyTorch, scikit-learn, Gradio, Hugging Face Spaces, Grad-CAM

GitHub: github.com/mrpouyaalavi/CIFAR-10-Image-Classification | Demo: cifar10.pouyaalavi.dev

- Designed and implemented an end-to-end deep learning pipeline to compare multiple architectures on CIFAR-10 under controlled conditions; ResNet-18 achieved 87.48% test accuracy using transfer learning, outperforming the custom CNN baseline.
- Extended the project with Grad-CAM interpretability, INT8 quantisation, command-line inference tools, and a Gradio demo deployed on Hugging Face Spaces.

LEADERSHIP & PROGRAMS

Startup Founder | Macquarie University Incubator

May 2026 – Present

- Accepted into the Macquarie University Incubator as co-founder of Syllabus Sync / MQ Navigation, a student experience initiative focused on academic planning, campus support, student productivity, and mobile-first campus wayfinding.
- Participating in startup validation, founder education, mentoring, and the EDUCATE accelerator program while continuing to develop the product direction, user experience, and technical implementation.

Macquarie University Mentoring Program – Mentee

Feb 2026 – May 2026

- Completed a structured mentoring program focused on career planning, professional communication, goal setting, reflective practice, networking, and career decision-making.

Macquarie University Buddy Program – Volunteer

Feb 2026 – May 2026

- Supported new students in their transition to university life through communication, guidance, and peer support.

CUSTOMER EXPERIENCE

Sales Co-Worker | IKEA

May 2025 – Present

- Supported customers in a fast-paced retail environment by communicating clearly, resolving practical issues, and collaborating with team members.
- Developed strong communication, teamwork, adaptability, and customer-focused problem-solving skills.

Sales Assistant | Zara

December 2024 – May 2025

- Delivered customer service in a fast-paced retail environment, supporting customer enquiries, transactions, stock handling, and teamwork.

EDUCATION

Bachelor of Information Technology (AI & Web and App Development) July 2023 – November 2026

Macquarie University

- Relevant coursework: Software Engineering, Data Structures, Algorithms, Database Systems, Web Development, and AI Fundamentals.

Certificate IV in Information Technology (Programming)

July 2022 – July 2023

TAFE NSW

- Built hands-on foundations in HTML, CSS, JavaScript, PHP, MySQL, responsive design, and database-driven web development.
